### HTML5 And CSS3

Apr 2025

infosys, Virtual

I have completed my HTML5 and CSS3 course on Infosys springboard which was a very nice experience and it also gave me good knowledge of HTML5 and CSS3 and their real world implementation in real life projects.

### HTML5 And CSS3

Jan 2025

infosys, Virtual

## PROJECTS

### [Jarvis Voice Assistant ↗](#)

Jun 2025

Jarvis – My Voice Assistant Project.Jarvis it's something I built myself, from scratch, using Advanced python and some modules for speech to text conversion and pyttsx to make jarvis to speak. It can open Google, YouTube, LinkedIn, Facebook, GitHub on command. Just say a song name, and it will play it on YouTube.

### [Bubble game ↗](#)

Jun 2025

This is a simple Bubble game made using HTML5,CSS3 and JavaScript. Where the player has to hit the bubble with the particular number within given Timer of 60 seconds. The score is also displayed until the Timer is finished.

### [Weather App ↗](#)
